“

...I walk, a lot. I've never owned a car. I'm ok in my own company. I talk. I probably smoke more than i should. I make zines. Documentaries too. I live in Redfern. I like walking & looking. I stop , I question , I capture. I dabble in photography. Dabble in hospitality. And Mural making, as well. Occasionally i stop and listen. I love to talk and I love to listen to other peoples stories , of past and present. And even better when watching the story unfold in front of me. And the best-est is when i try and do feel like i captured that. I also like to be in the story. But i most like to have stories told to me. In all its fonts and mediums. I'm a born again flaneur. An urban wanderer. With empathy. A passionate spectator. With tenacity. Whimsical, sad, slapstick, staged, impromptu, thoughtful, crass, raw and elegant. This is my succinct personal story of people and things ive captured in the city I have lived in for the past 2 years. All shot within **five kilometers** of my house. Analogue film & Digital photographs. Of The things and moments and those people I found most interesting, important and precious to me. In (3) Acts: Phoebe & Friends, Homeless & Street, Beach & Harbour...
